Nina

These designs draw inspiration from the old and new, in particular embroidery designs created by our late Grandmother Nina.

For this collection we looked at the Impressionist art movement for inspiration. The Impressionists mixed colours and brush strokes to try and recreate light and its ever changing qualities which to them described the passage of time.

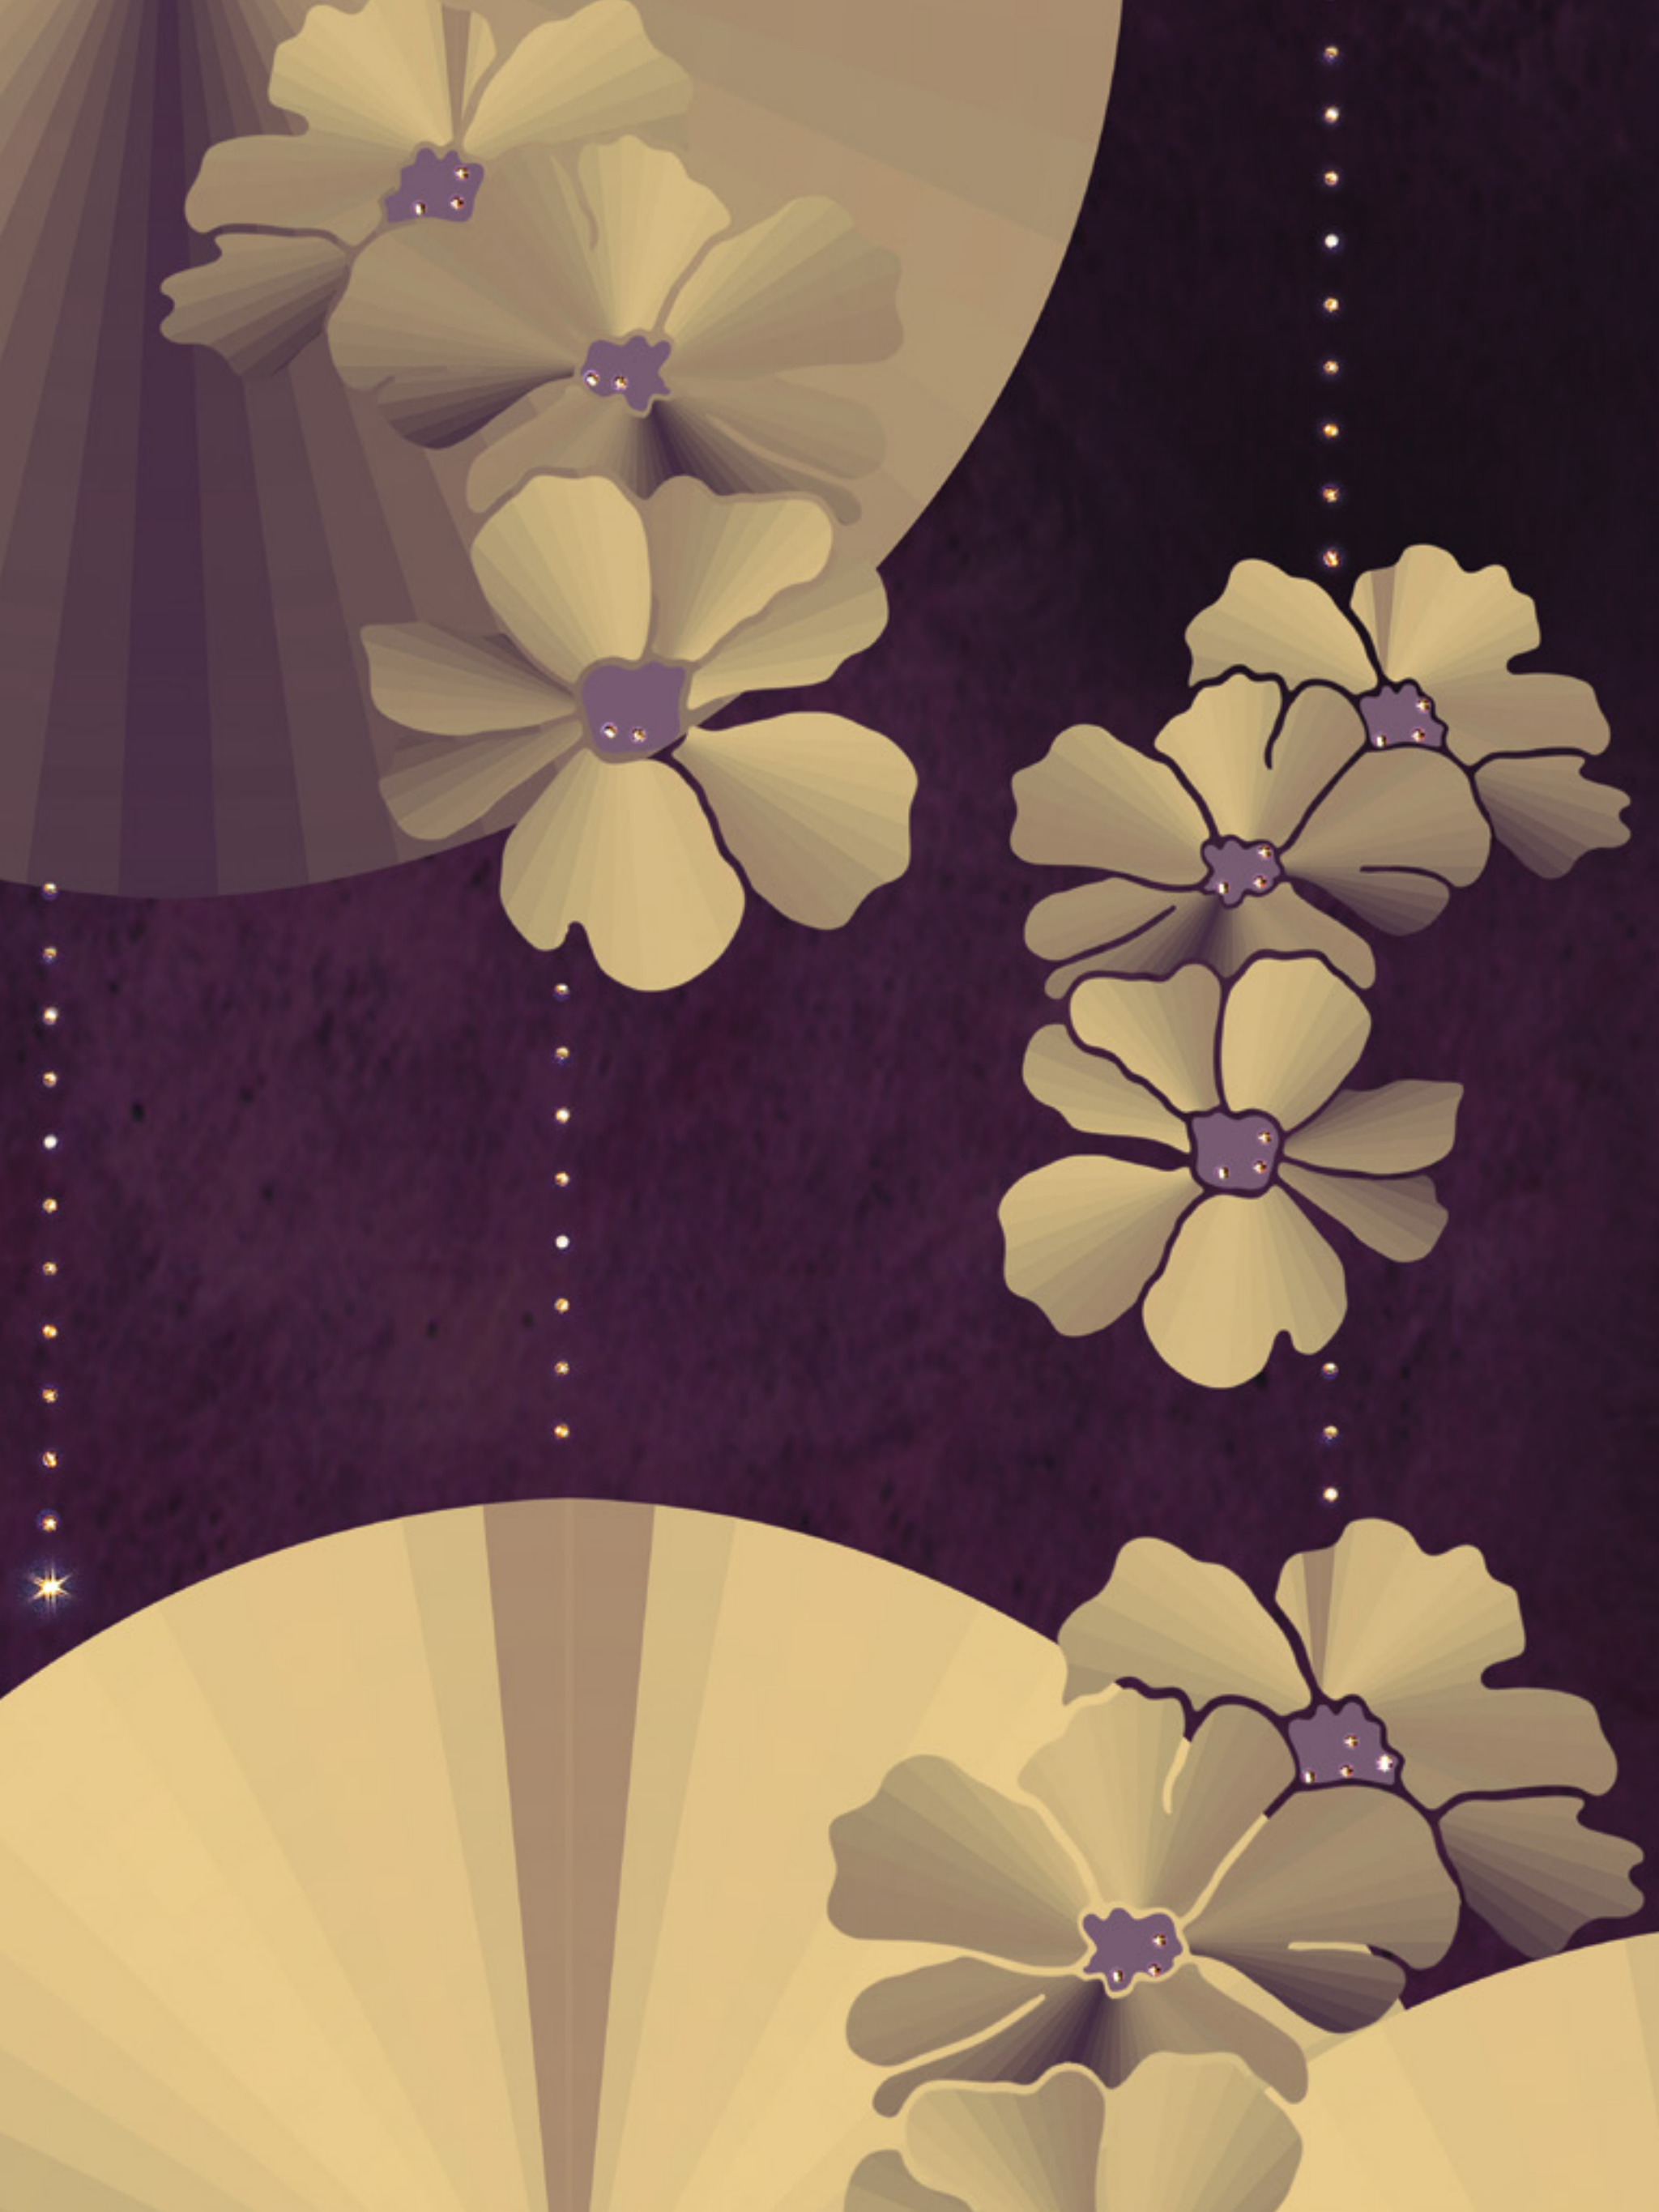

These wallpapers are hand finished with gold or silver dusting to create a tactile, hand crafted feel.

All designs are available with incorporated LEDs and Swarovski crystals upon request.
